BASIC

The diagram illustrates a text editor interface. At the top, a toolbar contains five icons: a bold 'B', an italic 'I', a list icon (three horizontal lines with dots on the left), an image icon, and a globe icon. An arrow labeled 'SELECT' points to the list icon. The main text area contains the following text:

Call me Ishmael. Some years ago- never mind how long precisely- having little or no money in my purse, and nothing particular to interest me on shore, I thought I would sail [about a little](#) and see the watery part of the world. It is a way I have of driving off the spleen and regulating the circulation. Whenever I find myself growing grim [about the mouth](#); whenever it is a damp, drizzly November in my soul; whenever I find myself involuntarily pausing before coffin warehouses, and bringing up the rear of every funeral I meet;

At the bottom of the editor, there are two buttons: a blue 'TEST' button and a grey 'SET TEXT' button.
